

# Air Therapy

## Aeroeffect

### Relax in the rippling effect of bursting bubbles

**Aeroeffect fills your bath with therapeutic air bubbles streaming from tiny holes surrounding the bathtub wall.** Designed for relaxation and peace of mind, the system uses check valve technology ensuring the most hygienic system on the market.

### Air Therapy perimeter air system by MAAX: Technology. Hygiene. Purity.

MAAX perimeter air system incorporates by far the most hygienic and quietest design on the market, ensuring a most exhilarating experience of wellness.

#### Features and benefits

##### MAAX check valve system

Opened check valve

Closed check valve

##### Traditional channel system

Blower shuts off the water enters and stays into the channel

Air is blown through the channel and into the water

##### Advanced check valve technology

The quiet air injectors used in our perimeter air system feature a check valve system to ensure water does not flow back into the system. When air is pushed through the airjets, the valve is opened, and a relaxing ripple effect is created in the tub. When the air blower shuts off, the valve activates, preventing backflow of water and keeping the system dry. Soothing oils and even exotic mud bath preparations can enhance your daily massage session.

##### Automated drying cycle

The system's automatic drying cycle activates 20 minutes after each bath session, purging any water droplets that may be left on the outside of the air injectors, limiting deposits. The reliable technology behind MAAX systems ensures that you enjoy a hygienic, gentle and relaxing massage.

##### FDA-approved feeding tube

Non-porous, waterproof piping is used to distribute air to the injectors. Compliant with strict US Food and Drug Administration standards, the pipe material guarantees an immaculate interior environment that prevents bacteria from lodging in any porous walls. All this means that both the safety of your system and your massage experience can be summed up in one word: perfect!

**Up to 35% quieter than competitive systems**  
**3-speed air push control.**

25-year warranty on check valves
