Water Massage

Hydrofeel

Specially designed for our Collection bathtubs, MAAX Hydrofeel therapeutic whirlpool system raises the bar on fine waterjet design. **Strategically located along the length of the body, the size and shape of the jets ensure a deep, targeted massage**—and back and foot jets round out an ultra sensory experience that's as invigorating as it is relaxing.

Features & Benefits

- 6-8 fine, powerful waterjets strategically located along the body to ensure deep, targeted massage
- 2-6 fine, powerful waterjets strategically positioned to swirl away lower back tensions
- 2-4 fine, powerful waterjets for effective foot treatment
- Retro-lit digital control with electronic timer and multi-speeds, water detector safety block, temperature detector and 1 memory setting for personalized massage action
- For peace of mind, the safety suction block deactivates the whirlpool if the suction jet becomes obstructed
- Whole body whirlpool action as invigorating as it is relaxing

Water Massage

Hydromax

Hydromax is simply the best luxury therapeutic whirlpool system you can get. Hydromax consists of an exclusive whole body whirlpool bathtub system whose powerful, high-performance waterjets precisely aim to effectively relieve aching muscles, stimulate the body and melt away the stresses of everyday life. Most Hydromax equipped bathtubs come with Backmax. Refer to the Backmax system page for more details.

Features & Benefits

- 4-6 whirlpool jets with individual direction and water flow control, to target specific areas
- 7-8 balanced back and microjets for intense, cascading shoulder and back massage (Backmax)
- Retro-lit digital control with electronic timer and multi-speeds, water detector safety block, temperature detector and 1 memory setting for personalized massage action
- 2 silent air controls for varying jet-action intensity
- For peace of mind, the safety suction block deactivates the whirlpool if the suction jet becomes obstructed
- Delightful swirl of water eliminating tension and relaxing the whole body

Microjet

Pulsating & rotating jet

Customize your massage

- Adjust direction by moving inside jet
- Turn and adjust the flow intensity of the individual jet. Completely close some jets to concentrate pressure in desired areas
- Control overall flow intensity of all jets with the electronic control

Whirlpool jet

Water Massage

Whirlpool

The 4 to 6 directionally adjustable jets allow you to personalize your massage to soothe or energize specific areas and enjoy the experience you deserve. Add a touch of luxury to the MAAX Professional Whirlpool with options such as a metal trim kit, Chromatherapy or a water heater.

Features & Benefits

- 4 or 6 direction-adjustable, colour coordinated jets
- 3/4 HP pump, 120 volts, 7.2 amps
- 2 colour-coordinated silent air controls to adjust massage intensity
- 1 colour-coordinated on/off air switch
- Available options: Chrome or brushed nickel decorative trim kit and water heater

Direction adjustable jet
and air push control

MAAX TIP: Adjust massage intensity by varying the air control dial.

Water Massage

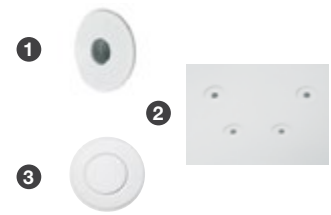

Microjet

10 enveloping microjets. Swirling water streams from 10 discreet jets, offering your sore muscles an encompassing and effective massage.

Features & Benefits

- 1 6 Microjets located on the side of the bathtub
- 2 4 Backjets
 - 1-speed pump $\frac{3}{4}$ hp, 120v/7.5A
 - Optional water heater
